missing.
The new Syndicate Circus is not a large affair. Its wagons and tents show signs of wear. The menagerie is small, the principal animals being an elephant and a young tiger. The attendance was not as large as at other circuses. Many people from the country were in to see the parade, which was not long. It included two bands, a drum corps, a half dozen or so of cages, elephants, camels, horse-back riders and a calliope which frightened the horses.
