

## World War II Gold Star Honor Roll

The following is a list of World War II Gold Star Heroes. After World War I ended Grace Siebold organized a group for the mothers of sons who gave their lives in war. The symbol for this group was a Gold Star. This group has continued until this day though it was changed from Gold Star Mother's to Gold Star Family's.

This list is a compilation of a list published by the Santa Cruz Sentinel printed on page 1 of their 30 May 1945 issue, another list published by the War Department and currently available at the National Archives (<http://www.archives.gov/research/military/ww2/army-casualties/california.html>), and a review of articles published by Robert Nelson and currently available on the Santa Cruz Public Library website (<http://history.santacruzpl.org/omeka/>) and individual newspaper articles.
