From one roll of fabric... to millions of overalls!
A business that grew the American way!

100th Anniversary of Levi Strauss & Co.

ONE HUNDRED YEARS AGO, a young pioneer named Levi Strauss sailed around the Horn to San Francisco, to seek his fortune in the gold fields. Along with his small baggage allotment, he carried a bundle of tough, heavy tent fabrics, which he planned to sell for a grubstake. But he saw a greater need—turned those fabrics into *pants*—and those pants proved so popular that Levi Strauss never got to the gold fields. Instead, he set himself up in a small dry goods and clothing business in San Francisco. And, as time went on, he made more and more of the rugged pants everyone liked. This was the modest beginning of Levi Strauss & Co.

ONE HUNDRED YEARS LATER, these pants—Levi's Overalls—are world-famous! Eight humming factories in the West are busy turning out millions of pairs of Levi's annually. And the Levi Strauss line of authentic Western Wear—pants, shirts and jackets—sets the Western styles in smart clothing shops from coast to coast. Levi Strauss & Co.—still in the hands of the founder's family—has continued to follow his guiding principle—to make the finest overalls and Western Wear in America!

The name LEVI'S is registered in the U. S. Patent Office and denotes overalls made only by LEVI STRAUSS & CO.

EVERYONE KNOWS HIS FIRST NAME—for Levi Strauss gave that name to America's most-wanted waist overalls—Levi's. From 1850 to 1902, the year of his death, the founder of Levi Strauss & Co. was the active head of the firm.

UNTIL THE FIRE OF 1906—this building at 14-16 Battery Street was the home of Levi Strauss & Co. It was here that Levi Strauss revolutionized the waist overall—originated and patented the use of copper rivets for greater strength.
