

Some 1896 Highlights:

January: A wet and cold time. The children are sick, Grandpa is visiting from Sutter, but there is time for popcorn and games of Whist with friends.

February: A leap year. Edna is in some trouble at school, according to Mary; "Edna is still in Hot water at School" Her writing and arithmetic are suffering. Mary and Pop will make many trips to the school to visit teachers and administrators, and a special trip to see the trustees.

May 7: Mary and Grandpa travel on the steamer, *St Paul* for two days, from Santa Cruz to Pomona via San Pedro and Los Angeles. After buying tickets for their return trip on the same steamer, Grandpa gets lost and is missing overnight. Grandpa is found the next day but the steamer has sailed making it necessary to take the train home. An overnight trip, with a stop in Tracy, "a miserable little dusty Hole" according to Mary.

June: The month was a busy one. The children practiced their parts to sing for the Venetian Water Carnival, while Mary made costumes for them to wear for the event. The 2nd annual Venetian Carnival was notable for visiting ships of the Pacific Fleet. And military reenactments on both water and land.

Wednesday, January 1, 1896 A very Bright and Pleasant day

Alverda¹ was taken very suddenly ill early this morning at noon her fever was up to 103 1/2 Edna² went for the Dr he was here twice today her fever is still High I did not get to Bed till after three this morning I sent Mrs Litchfield³ some Apple Snow⁴ I made- Mrs M-⁵ came in we Played cards a while this evening. Sunday, January 7, 1896 Cloudy lookes a little like rain. Edna went to Sunday school a lone the other two Girls were not able to go. the Dr came this morning Luene seemes almost well But I don't think A[lverda]- is so well. My throat is sore to night. Pop took Grand Pa Jennie & Edna to Capitola to see the new Wave Motor¹ I did not go out wrote a letter Home Popped some read to the children also read Black Beauty in the evening Jennie & Edna went down to church Maud Scott came to the door All the rest well

¹ In July of 1895 it was announced that the small resort town of Capitola near Santa Cruz had been selected as the site of the Gerlach wave motor, the first large scale wave motor project for generating electricity for commercial purposes. By July 1896 the project was deemed a failure.

North wind still a little Hazy.

Helped Iron some then I sewed a little on Alverdas dress. Pop took me over to the Dr the thing would not work so I came Home and made another and Had better luck the second trip. Pop & Grand Pa went over to town got a load of wood for the fire Place Clara Chrichton came down a little while this afternoon I enjoyed it very much Jennie went over Home Pop Grand Pa & Edna & I played a few games of Cards I think the children are Better today well

J. FLORES' DWELLING BURNED.

A Defective Flue Caused a Fire-Adjoining Cottages Saved.

At 5 P. M. Saturday an alarm was sounded for a fire in Prof. J. Flores' residence on East Laurel St., just outside of the city limits. The fire wagons were driven to the fire, but it was found that the near st hydrant was on Barson, nesr Bixby stseet, necessitating a line of hose 1,250 feet long to be used. With only one stream the firemen did good, for when they reached East Laurel street the house was enveloped in flames, which threatened adjoining buildings, including Flores Hall and the cottages of E. W. Brunton and F. W. Blaney, both residents of Freeno.
